

Build Steps

1 Create Your Agent

Open Agent Builder and select Create new agent, then configure:

Agent Name	Broker Operations Assistant
Description	Helps brokers and operations teams quickly get insights on policies, renewals, premiums, and commission.
Tone	Professional, clear, concise

2 Add the Data

Go to Knowledge and upload the provided Excel file. This file contains:

- Broker details (name, region, experience, specialisation)
- Policy details (policy type, client, status)
- Financial data (premium, commission rate, commission earned)
- Dates (start date, renewal date) and coverage amounts

This is the only data the agent should use.

3 Add Agent Instructions

Paste the following into the Instructions / System guidance box:

You are a Broker Operations Assistant supporting insurance brokers and operational teams. Use the uploaded spreadsheet as your single source of truth.

When answering questions:

- Base all answers strictly on the data in the file
- If totals or insights are requested, calculate them from the rows
- Show supporting details where relevant (Broker, Policy ID, Client, Status, Dates, Premium, Commission)
- Keep responses clear, professional, and concise

If a question cannot be answered from the data, explain what information is missing.

4 Add Suggested Prompts

Add these as Suggested Questions so users can click them:

Show me all policies with Pending Renewal and their renewal dates

How much commission has each broker earned in total?

Which region has the highest total premium value?

Try These Live

Use these queries during the build-along to test your agent.

Renewals & Risk

List all policies that are Pending Renewal, sorted by renewal date.
Which broker has the most policies coming up for renewal?

Commission & Revenue

Show total commission earned by broker, highest to lowest.
Total commission earned by brokers in Dublin.

Operational Triage

Show me all Lapsed and Cancelled policies with client name, broker, and premium.
What is the total premium value of policies that are lapsed?

Insight Summary

Give me three key insights from this broker book.

How to Think About This Agent

This agent replaces:

- Manual filtering in Excel
- Chasing renewal lists
- Copy-pasting commission summaries

With:

- ✓ Natural language questions
- ✓ Answers grounded in broker data
- ✓ Clear evidence and auditability

This is trusted, internal AI — not generic chat.

Tip for real-world use

In a real deployment, access controls would ensure brokers see only their own clients and managers see regional or company-wide views. Today's session focuses on capability and pattern.

You've built an agent ✓

You now have an AI agent that can:

- Understand broker data
- Answer operational questions
- Surface risk and opportunity
- Support better, faster decision-making
